Full stack web developer leveraging background in finance and taxation to provide unique perspectives on how end-users interact with websites and software platforms. I have earned a professional certification in Full Stack Web Development from the University of Adelaide Coding Boot Camp. I also have a Bachelor of Commerce (majoring in accounting) from The University of New South Wales, Australia and worked for many years as an Accountant.

Web Development and Information Systems always inspired me and I am very passionate about developing applications with a focus on mobile-first design and development.
My strengths lie in creativity, teamwork, and building projects from ideation to execution.

TECHNICAL SKILLS

Front end: HTML, CSS, Javascript, CSS Materialise, Node SASS, React, Reactstrap, Web APIs

Back end and others: Node.js, My SQL and Sequelize, MongoDB, Mongoose ODM, Insomnia, Heroku, Git, and JWT

PROJECTS

   GitHub Link: https://github.com/stellalph/MERN-Ski-Resort.git
   Deployed: https://still-harbor-63486.herokuapp.com/

- Summary: A fictitious ski resort encouraging the users to stay active and healthy.
- Role: Sole Collaborator
- Technologies Used: React, Reactstrap, GraphQL, MongoDB, Mongoose ODM, Node JS and its dependencies and Heroku

EXPERIENCE

CPA qualified accountant with hands-on accounting experience in various industries including manufacturing, banking, defence, and hospitality. In these roles as a financial accountant in JP Morgan, BAE Systems, ZF Lemforder, Jurlique International, Shared Services South Australia, I have effectively contributed to financial deliveries within the specified timeframes. I have also contributed as a team member to improving the financial system processes and deliverables.

This shows my ability to work effectively and collaboratively with other members of the team to achieve the ultimate goals.
